

# PASSWORD TRIAD

SYMBOLS  
NUMBERS  
MIXED CASE LETTERS

## 1st

step of protection  
in the cyber world is  
generating a strong password.

# CREATE

A strong password using symbols, numbers, and a mixture of case letters. Use a phrase that makes it easier to remember the password.

# LONGER IS STRONGER

The longer you make your phrase, the more difficult your password will be to obtain
